

MARTA CHROSTOWSKA

Chinese Horoscope drawings were inspired by a long term process of my application for Study China Programme. Moreover country's language, culture and Chinese/Japanese animation. I also linked it with my astrology interest. It represents 12 animals in eccentric elegance matching the Georgian style of my current work place, Home House.

Thanks to travelling to China and completing my Study China experience, I had a pleasure to visit various cities and places, meet people and discover the culture itself. I was extremely inspired by China in many aspects. Therefore I decided to apply for my Master at Peking University in Beijing.
